*Patti has notes uploaded 10/12/17 for FP 08-2017-0124.1A

1901	Post oak	30	dead 0%
1899	American elm	26	dead 0%
1879	Post oak	34	dead 0%
1840	Post oak	36	dead 0%
1858	American Elm	34	Healthy, mature
1836	Post Oak	30	dead 0%
1834	Post Oak	28	Healthy, vertical canopy
			Trees below this row were impossible to locate in person due to the dense vegetation on site. I flew a drone over the area to take photos of the trees
1408	Cedar elm	20	Tree in poor to dead condition most likely.
1431	Cedar elm	22	Fair condition. I believe I'm able to identify this tree from drone photos.
1841	mesquite	25	Adjacent to occupied property line. Fair to good condition
1853	American elm	22	Adjacent to occupied property line. Fair to good condition.
1865	Post oak	22	Condition good
1866	Post oak	22	dead
1917	Cedar elm	23	All the trees in this area are elm and cedar. There are many dead trees and the living ones are quite stressed. Condition likely poor
